

AMGH Selects P&WC

April 24, 2018

AMGH has selected Pratt & Whitney Canada (P&WC) for comprehensive engine services on approximately 250 P&WC helicopter and fixed wing engines. The umbrella agreement covers PW206 helicopter engines already maintained by P&WC in addition to a large number of PT6A fixed wing turboprop engines, which were previously not covered.

The program establishes maintenance prices up front, reduces risks and improves overall fleet reliability. P&WC is a global leader in aerospace, based in Longueuil, Quebec and is a wholly owned subsidiary of United Technologies Corp., based in Farmington, Connecticut.

Agreement signing ceremony: Seated (L-R) John Saabas – President, P&WC, Fred Buttrell – CEO AMGH. Standing (L-R) Phillip Devasia – Director – FP&A, Med-Trans, and P&WC's Jeff Winters – Regional Manager, The Americas, Irene Makris – VP Marketing, Alain Rivard – Customer Manager, Nicholas Chabee – VP Marketing, Helicopter Engines, Engines, Jean-Sebastien Ratelle – Sales Manager, Fleet Operators and Tim Swail – VP Customer Programs.
